LIGHT AND COLOUR CARRIED ON THE WINGS OF SCENT

As the tale goes, Aurora, the Roman goddess of dawn, traveled the horizon from east to west carrying with her the light of a new day. She represented hope, renewal and mystery and is said to have brought light to the heavens and earth, her charms able to move the stars. Her ethereal qualities live on by name in the phenomenon of Aurora Borealis, the colourful lights in the northern and southern skies.

The power of light and colour has long been used in the ancient art of vibrational healing. Like colour, essential oils vibrate at particular frequencies and have a powerful effect on the mind, body and spirit. When exposed to these subtle energies they evoke feelings of euphoria, energy or relaxation.

The Aura Botanical Spa celebrates the delicate beauty of colour, light and scent therapy through your healing spa journey.
